

NIC 05611-85
12 November 1985

MEMORANDUM FOR:

Acting Chief, Collection Requirements and
Evaluation Staff, DI

25X1

FROM:

Acting National Intelligence Officer for Economics

25X1

SUBJECT:

Your Memo on the Monograph Program, dated 21 October
1985

Obviously the primary responsibility for identifying future
production by rests with DDI components since the
studies would be used mainly as background and input to finished
production. Nevertheless, I have identified several studies which I
would likely read should DDI recommend their production. These include:

25X1

Soviet Management and Business Administration

25X1

Theory and Practice of Control Problems
Encountered in Planning the Soviet National
Economy

Production Optimization for Machine-Building
Industry and Economic Planning in the Soviet
Instrumentation Industry

Soviet Industrial Economics
